

NEWSLETTER 2012

Happy New Year and wishing you all good health for 2012 and beyond.

The Millennium Village Health Centre has now started to offer extended primary care services such as physiotherapy, podiatry, diabetic clinics and counselling. These are provided by colleagues from Oxleas NHS Trust. Access to these services is by referral from a GP only.

You will have seen that the Practice is busier and would be grateful if you could use the automated check-in if possible and also arrive in time for your appointments as those people who are late will not be seen.

Unfortunately you will have noticed there are more cars using the car park, this is because of the increased services being provided and our patients will have to consider occasionally having to park in the parking bays in the surrounding areas.
